

Matthew Lau

Cupertino, CA | (408) 596-1554 | <https://matthew-coding-portfolio.vercel.app/> | matthewlau191@gmail.com | <https://github.com/mattycakes14>

EDUCATION

University of Washington

Seattle, WA

Bachelor of Science in Computer Science, Paul G. Allen School

Graduation: Jun 2027

GPA: 3.71 /4.0 | Dean's List

Coursework: Object-Oriented Programming, Data Structures and Parallelism, Hardware/Software Interface, Linear Algebra, Multivariable Calculus, Probability & Computational Complexity, Machine Learning, Systems Programming

CERTIFICATIONS AND SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, SQL, Go, Swift

Frameworks & Libraries: React, React Native, Next.js, Flask, FastAPI, Node.js, Express.js, Selenium, Expo Go, Tailwind, BeautifulSoup, LangChain, NumPy, TensorFlow, PyTorch, Transformers, HuggingFace, FAISS

Databases & Tools: Firebase, Supabase, Redis, Qdrant, Pinecone, Docker, Alembic, Git, Postman, Figma, AWS (S3, EC2)

EXPERIENCE

UW Medicine

Seattle, WA

Software Developer

Feb 2026 – Present

- Shipped a batch of client-requested changes to the UW Medicine NWHCP site (React), including new program filters (Doctor for a Day, UDOC, SHPEP, SHPEPLE), repositioned search controls, updated CTA copy and placement, and refreshed footer branding with partner organization logos

Clad Labs (YC F25)

San Francisco, CA

Software Developer

Jun 2025 – Sep 2025

- Architected ad content extraction pipeline with DSPs to scrape website content and extract text from ads via OCR, generating embeddings that increased ad text coverage by **22%**, web text by **33%**, and vector search accuracy by **11%**
- Built backend API proxies to inject contextual developer tool advertisements into AI workflows, leveraging LangGraph routing and Supabase state persistence to deliver personalized ad recommendations across multi-turn conversations
- Led early user acquisition across LinkedIn, Twitter/X, and Instagram, scaling a **10,000-developer** closed-beta waitlist and driving a **#1 Twitter/X News trend**

University District Street Medicine

Seattle, WA

Software Developer

Jan 2026 – Present

- Architected a full-stack volunteer management portal (FastAPI, Next.js, PostgreSQL) for a **\$20K+** funded medical outreach program serving **300+ patients** across 6 outreach sites, replacing fragmented spreadsheet workflows and legacy systems (WeJoin)
- Implemented RESTful API endpoints with pagination, filtering, and nested relationship queries to automate bi-annual reporting and reduce admin overhead for **50+ weekly volunteer sign-ups**
- Developing a public-facing Next.js website with SSR/SSG optimization, featuring team profiles, event calendar with Google Calendar integration, Mailchimp newsletter subscriptions, and a blog CMS

Eat Together

Seattle, WA

Software Developer

Jan 2025 – Sep 2025

- Integrated Yelp API to fetch restaurant data and developed an algorithm using weighted selections to tailor restaurant recommendations for **200+ meetups** between **500+ users**
- Developed interactive quiz system and Tinder-style swipe interface in React Native, enabling users to set dietary, price, cuisine preferences, and discover restaurants, with Firebase storing favorited selections
- Conducted user research with **100+ UW students** to identify core feature requirements, informing design decisions for cuisine filtering, dietary preferences, and favoriting functionality

PROJECTS

Briefly – Hiya Demo Day (2nd place) | Seattle, WA

Oct 2025

- Engineered a multi-agent meeting prep system with LangGraph + FastAPI, enabling parallel data fetching from GitHub, Jira, and Notion APIs to auto-generate personalized 60-second voice briefings
