EDUCATION

University of Washington

Seattle, WA

Bachelor of Science in Computer Science, Paul G. Allen School

Graduation: Jun 2028

GPA: 3.71 /4.0 | Dean's List

Coursework: Object-Oriented Programming, Data Structures and Parallelism, Hardware/Software Interface, Linear Algebra, Multivariable Calculus, Probability & Computational Complexity, Machine Learning, Systems Programming

CERTIFICATIONS AND SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, SQL, Go, Swift, C, C++

Frameworks & Libraries: React, React Native, Next.js, Flask, FastAPI, Node.js, Express.js, Selenium, Expo Go, Tailwind, BeautifulSoup, LangChain, NumPy, TensorFlow, PyTorch, Transformers, HuggingFace, FAISS

Databases & Tools: Firebase, Supabase, Redis, Qdrant, Pinecone, Docker, Alembic, Git, Postman, Figma, AWS (S3, EC2)

EXPERIENCE

Workday

Pleasanton, CA

Incoming Software Developer Engineer Intern

Jun 2026 – Sep 2026

UW Medicine

Seattle, WA

Software Developer

Feb 2026 – Present

- Shipped a toast notification system to give success/failure feedback for user actions (event creation, student signup, etc.), reducing user confusion by providing visible, descriptive success and error states
- Rewrote Firestore security rules and developed backend endpoints for role assignment, enforcing role-specific database permissions for admins, leads, and volunteers across **100+ service programs**

Clad Labs (YC F25)

San Francisco, CA

Software Developer Engineer Intern

Jun 2025 – Sep 2025

- Architected ad content extraction pipeline to scrape website content and extract text from ads (OCR), generating semantic embeddings that increased ad text coverage by **22%** and website text by **33%**
- Built backend API proxies to recommend developer-tool advertisements inside AI coding assistant chats, using LangGraph for routing prompts and Supabase for storing user tool preferences for **10,000+ developer waitlist**; shipped to production for YC Demo Day

PROJECTS

UW Office of Rural Programs Website | Next.js

May 2026 – Present

- Leading the rebuild of the UW Medicine Office of Rural Programs website replacing a WordPress site to improve information accessibility for medical students and preceptors across the WWAMI region (**5 states, 7 programs**)

University District Street Medicine | Next.js, Sanity CMS

Jan 2026 – Present

- Building a web platform for University District Street Medicine (UW Medicine funded organization), including About, Executive Board, and Membership pages to support volunteer recruitment and public engagement

Northwest Health Career Path | React, Go, MongoDB, Docker

Jan 2026 – Present

- Contributed ongoing maintenance and feature development to Northwest Health Career website, implementing program filters, UI refinements, and content updates to support healthcare career exploration for underrepresented students

Eat Together | React Native, Firebase

Jan 2025 – Sep 2025

- Integrated the Yelp API and built a scoring algorithm that ranked restaurants using user quiz inputs (dietary restrictions, cuisine preferences, price range) as weighted factors for **500+ users**
- Built the React Native frontend with a preference quiz and Tinder-style swipe interface for restaurant discovery, backed by Firebase for user preferences and saved selection

Briefly – Hiya Hackathon (2nd place) | React Native, LangGraph, FastAPI, Railway, OpenAI API

Oct 2025

- Engineered a multi-agent meeting prep system, enabling parallel data fetching from GitHub, Jira, and Notion APIs to summarize user meeting notes for standups
